

Thanks for the memories.

Throughout 2006 the Canada Safeway Foundation sent thousands of children to summer camp, provided countless nutritious meals across Western Canada and encouraged children of all ages to reach for their dreams. Thanks to the generosity of our employees, partners and friends, the Foundation continues to help create memories that will last a lifetime.

The Canada Safeway Foundation supports initiatives that feed, protect and nurture children and families. Recognizing that health and nutrition are priorities for Canadians, the Foundation launched the Safeway Sends Kids to Camp initiative. In addition, we champion the following three causes on behalf of the company: disaster relief in times of crisis, breast cancer research, and prostate cancer research.
